## Meeting Notice

### MEPA Site Visit and Consultation Session for Emera Atlantic Link Project

PLYMOUTH – Clean Power Northeast Development advises that the Massachusetts Environmental Policy Act (MEPA) Office will host a site visit and public consultation session regarding the company's proposed Atlantic Link subsea transmission cable project on Wednesday, October 18, 2017.

The site visit, scheduled for 4:00 p.m. on October 18, will be specific to property where Atlantic Link's land-based facilities are proposed. All participants must meet at the Plymouth Moose Lodge, 601 State Road, Plymouth for bus transportation to the project site.

Following the site visit, MEPA staff will host a public consultation session including a presentation about the Atlantic Link project. The meeting will be held beginning at 6:00 p.m. at the Plymouth Moose Lodge, 601 State Road, Plymouth. All are welcome.

The purpose of the public consultation session is for the MEPA Office to receive advice and comments from agencies, officials, and citizens regarding which environmental issues, if any, are significant for the Atlantic Link project. The session is related to Atlantic Link's submission of an [Environmental Notification Form](#) to the MEPA Office.

Atlantic Link is a proposed subsea high-voltage direct current (HVdc) transmission line that would deliver up to 1,000 megawatts of clean energy from Canada directly to Massachusetts, through a cable landing site in Plymouth. It is being developed by Clean Power Northeast Development, a subsidiary of Emera Inc. The Atlantic Link project has been proposed in response to a [Request for Proposals](#) for clean energy being conducted as a result of state legislation approved in 2016. Proposals have been submitted, and a decision is expected in January 2018. Atlantic Link would require building new electric infrastructure beside Power House Road, with construction beginning in several years. The project requires several state, federal and local zoning approvals.

For additional information or with any questions, please e-mail [atlanticlink@emera.com](mailto:atlanticlink@emera.com) or call (617) 530-1309.
